SOFT TWIST

GET THE LOOK

SOFT TWIST WINTER NOMAD

Hair takes on a soft, almost fabric-like texture, taking cues from nomadic, tribal styling to create a tousled, 'lived-in' finish.

1. PREP

Spray **Salt Spray** throughout the hair to add texture.

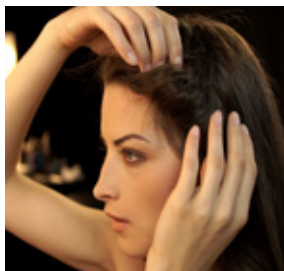

2. BLAST DRY

Blast dry the hair with your fingers.

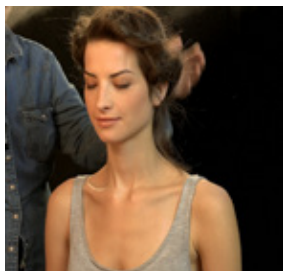

3. TWIST & PIN

Take a section of hair at the front, twist it then roll it up towards the face and secure with a pin.

4. CREATE TEXTURE

Continue the same technique around the head leaving hair out to create a soft texture.

5. FINISH

Spray **Work It Hairspray** for a natural touchable finish.

PRODUCTS USED:

Salt Spray
Work It Hairspray
